JOURNAL OF APPLIED CARDIOLOGY

Volume 3, Number 1 1988

Contents

R. J. Bing
H. Taegtmeyer 1 Editorial
Journal of Applied Cardiology

E. Carafoli
R. J. Bing 3 Myocardial Failure

G. Mercuro
Z. Rossetti
C. Rivano
M. Ruscazio
L. Tocco
F. Sau
L. Lai
G. Gessa
A. Cherchi 19 Marked Increase of Peripheral Dopamine Metabolism in Congestive Heart Failure in Man

K. Ishikawa
K. Kanamasa
R. Katori 29 Effects of Oxygen Inhalation on Myocardial Ischemia in Dogs

K. T. Weber
J. S. Janicki
S. G. Shroff
R. Pick
C. Abrahams
R. M. Chen
R. I. Bashey 37 Collagen Compartment Remodeling in the Pressure Overloaded Left Ventricle

Y-S. Lee 47 Alterations of Anionic Molecular Organization in Basement Membrane Ultrastructures of Human Myocardial Cells and Capillaries in a Diseased State

P. I. Polimeni
D. Bose
R. Bose
M. D. Otten
B. T. Ottenbreit 57 Drag-Reducing Polymers: A Novel Category of Drugs Potentially Useful in Cardiovascular Disease?

F. Tan
H. Taegtmeyer 67 Concepts of Cholesterol Metabolism and Cholesterol Lowering Drugs: Attempt of a Balanced Review

---

Volume 3, Number 2 1988

Contents

R. J. Bing
H. Taegtmeyer 87 Editorial

D. A. Cooley 89 A Brief History of Cardiac Surgery

L. De Caprio
M. Papa
D. Acanfora
F. Gallucci
M. Cicatiello
V. Canonico
F. Rengo 101 Effects of Aging and Beta-Adrenergic Blockade on QT/QS2 Changes Induced by Isometric Exercise

Y. Satoh
H. Okayama
M. Keitoku
Y. Maruyama
T. Takishima 111 The Effect of Mg^{2+} on Isolated Human Coronary Arterial Contraction

F. Hernandez
L. D. Fusilli
M. Pandya
V. K. Zbuzek
W.-H. Wu
T. J. Regan 121 Ventricular Vulnerability in a Chronic Smoking Model: Relation to Hormonal Responses

B. Swynghedauw
K. Schwartz
Y. Lacarpentier
R. Clapier-Ventura
J. Perennec
A. Waldenstrom
D. Chemla
P.-Y. Hatt 133 Species-Specificity of the Isomyosin Shift in Cardiac Overload

P. Busch
A. Deussen
G. Heusch 145 Sympathetic Effects on Segmental Coronary Resistances and their Role in Coronary Collateral Perfusion

Volume 3, Number 3 1988

Contents

R. J. Bing	161	Editorial
M. Kinjo **T. Araiso** **T. Koyama**	163	The Effect of Phospholipase A_2 on the Dynamic Microstructure of Phospholipid Layer of Mitochondria from Rat Myocardium
E. M. Chance	173	Estimation of the Magnitude of Oxygen Gradients in Cardiac Muscle in the Coherent State
J. Franzén **C.-H. Florén** **B. W. Johansson**	179	Platelet Count in Predicting Prognosis after Acute Myocardial Infarction
S. E. Warren **P. C. Come**	183	Effects of Water Immersion in Heart Failure Patients and in Normal Controls: Implications for Volume Regulation
T. R. Snow **H. L. Stone**	191	A Study of Factors Affecting the Oxidation-Reduction State of CYT A, A_3 in the In-Situ Canine Heart
J. J. Ferguson III **S.-I. Momomura** **R. G. McKay** **M. J. Miller** **W. Grossman**	197	The Effects of Nitroprusside and Methoxamine on Aortic Pressure-Diameter Relationships
R. C. Becker **J. M. Corrao** **S. P. Baker** **J. M. Gore** **J. S. Alpert**	213	Circadian Variation in Thrombolytic Response to Recombinant Tissue-Type Plasminogen Activator in Acute Myocardial Infarction
	223	Erratum

Volume 3, Number 4 1988

Contents

R. J. Bing	225	Editorial

S. M. Warren
E. N. Siguel
E. Gervino
E. W. Salzman
K. J. Silverman
R. C. Pasternak
227 Effects of Cod Liver Oil on Plasma Lipids, Eicosanoids, Platelet Aggregation, and Exercise in Stable Angina Pectoris

K-m. Zhang
M. Budden
C. Martin
W. Meesmann
237 Cardiac Contractile Force as the Main Factor of Early Myocardial Loss of 8 μm Microspheres

E. E. Schneeberger
251 Lung Microvascular Permeability Studies in the Perfluorochemical Exchange Transfused Rat

G. Heusch
D. Frehen
K. Kröger
R. Schulz
V. Thämer
259 Integrity of Sympathetic Neurotransmission in Stunned Myocardium

M. D. Feldman
J. K. Gwathmey
P. Phillips
F. Schoen
J. P. Morgan
273 Reversal of the Force-Frequency Relationship in Working Myocardium from Patients with End-Stage Heart Failure

L. Dézsi
285 Suppression of Endothelium Dependent Dilation in Coronary Resistance Vessel by Gossypol

J. Getzen
293 Book Review
Acute Coronary Intervention
by Eric J. Topel

Volume 3, Number 5 1988

Contents

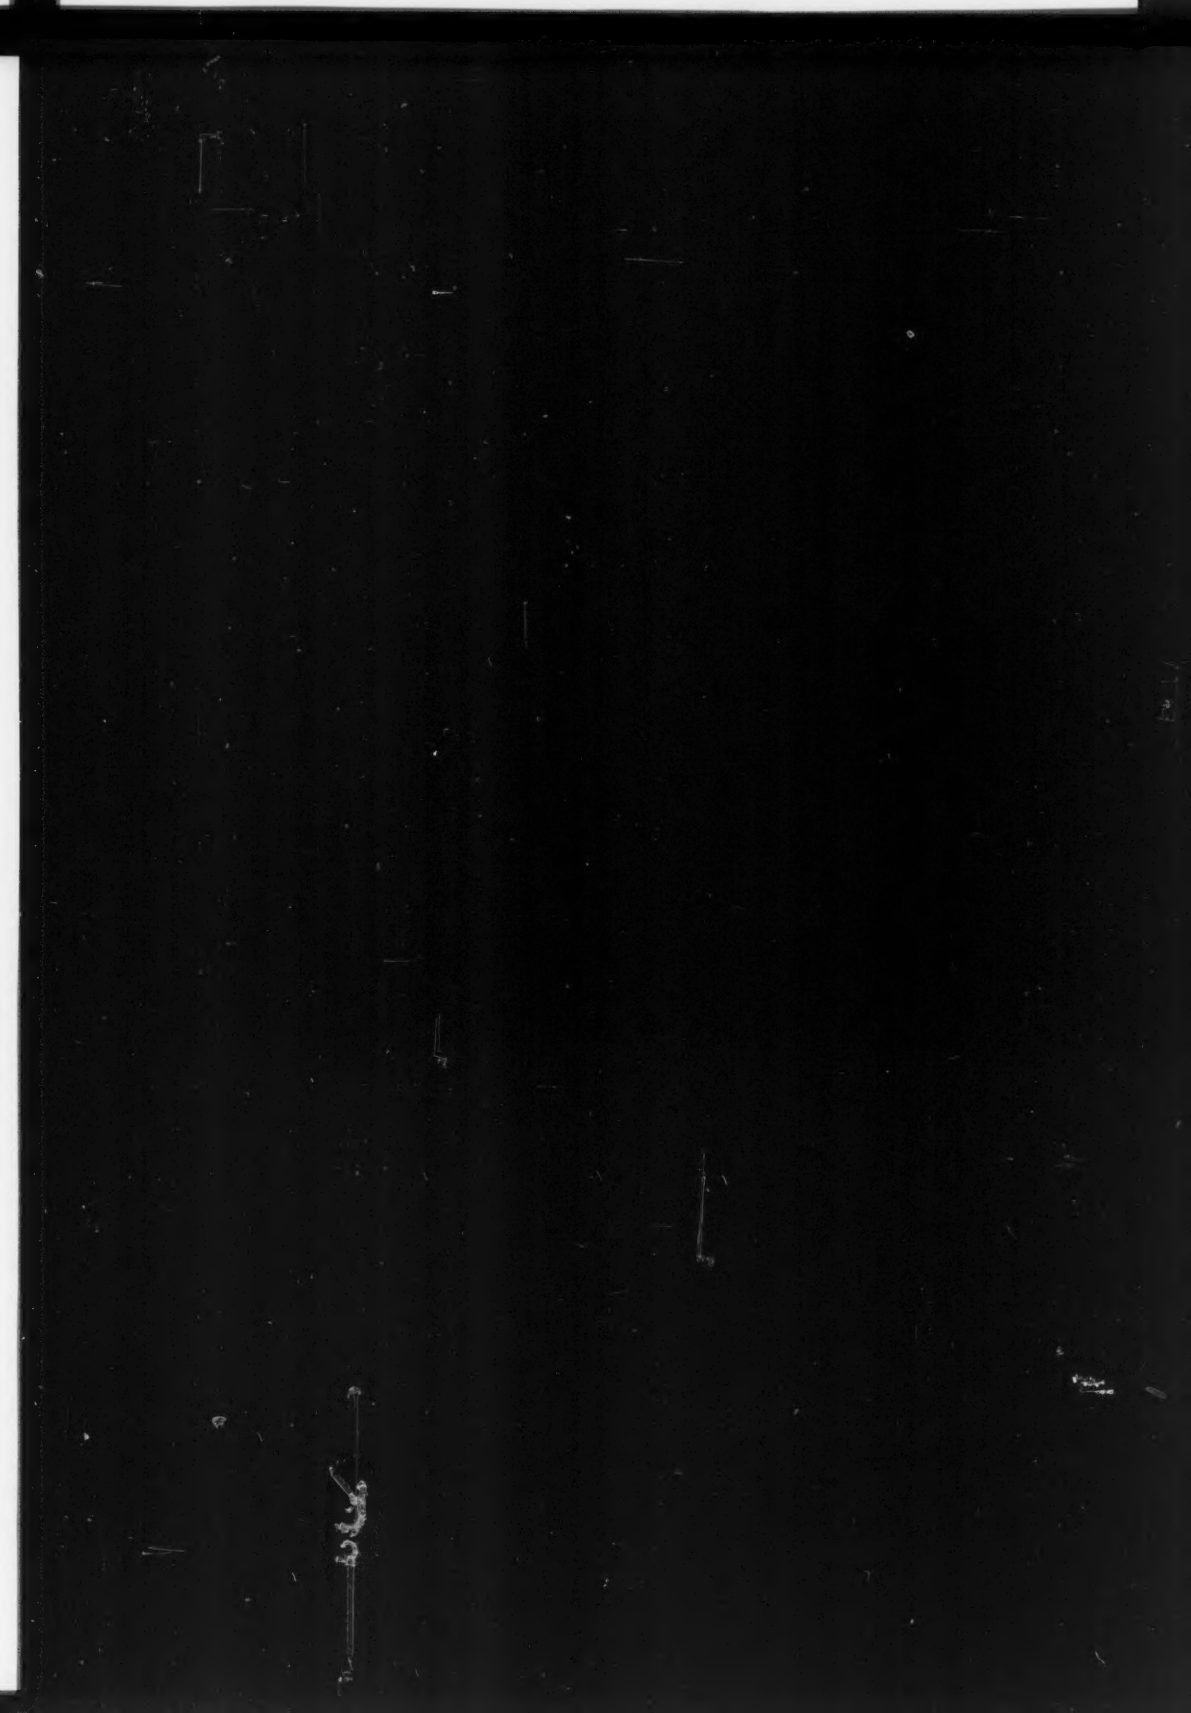
D. Duboc
P. Jehenson
D. Morvan
A. Syrota
M. Degeorges
295 Influence of Beta-Adrenergic Blockade on Potassium Uptake in Post-Exercising Human Muscle

J.-M. Chemnitius **P. Häfner** **H. Kreuzer** **R. Zech**	301	Latent and Free Citrate Synthase Activity as Enzymatic Indicators for Respiratory Potential of Isolated Porcine Heart Mitochondria
L. B. Bugaisky	311	The Use of Cell Culture to Study Cardiac Myocyte Growth and Adaptation to Stress
R. N. Kitsis **J. Scheuer**	327	Correlations and Dissociations Between Myosin Isoenzymes and Cardiac Function
B. J. Murphy **B. S. Tuana**	339	Properties of the High Affinity Binding Site for the Ca^{2+} Channel Blocker [^{3}H] Verapamil in Rabbit Heart Sarcolemma
P. Duijst **N. Westerhof** **G. Elzinga**	353	The Lower Limit of Coronary Autoregulation

---

Volume 3, Number 6 1988

Contents

N. Baisong **L. Yuan** **C. Huadong** **L. Chunsheng** **C. Lihua** **Z. Xingwen**	363	The Significance of Trace Element Seleniun in the Pathogenesis of Dilated Cardiomyopathy
E. K. Seppet **M. A. Eimre** **A. P. Kallikorm** **V. A. Saks**	369	Effect of Exogenous Phosphocreatine on Heart Muscle Contractility Modulated by Hyperthyroidism and Extracellular Calcium Concentration
E. Helve **J.-P. Ojala** **M. J. Tikkanen**	381	Simvastatin and Gemfibrozil in the Treatment of Primary Hypercholesterolemia


M. Chimelli **A. P. Campello** **M. Lucia** **W. Klüppel**	389	Effects of Mexilitine on Mitochondrial Metabolism
A. Bass **M. Šamánek** **B. Oštádal** **B. Hučín** **M. Stejskalová** **V. Pelouch**	397	Differences Between Atrial and Ventricular Energy Supplying Enzymes in Children
L. H. Opie	407	Hypothesis: Glycolytic Rates Control Cell Viability in Ischemia
S. E. Warren **L. H. Cohn** **F. J. Schoen** **G. H. Mudge, Jr.** **B. H. Lorell**	415	Advanced Diastolic Heart Failure in Familial Hypertrophic Cardiomyopathy Managed with Cardiac Transplantation
R. A. Hong **C. R. McKay** **P. A. N. Chandraratna**	423	Regional Wall Motion Abnormalities of the Heart in the Absence of Coronary Artery Disease
H. Blaschko	429	Dihydroxyphenylserine (DOPS) as a Therapeutic Agent: Reflections on Pure and Applied Science
R. J. Ging	433	Book Review *Oxford Textbook of Medicine, 2nd edition,* Oxford Medical Publications, Oxford University Press
	435	Volume 3 List of Contents and Author Index
